DETAILED ACTION

1. Applicant's amendment filed 7/18/02 in Paper No. 10 is acknowledged and entered.

Claims 4-11, 13-15, 18-22, 26-29, 34, and 46 are amended. Claims 39-45 are canceled. Claims 1-38 and 46 are pending.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-28, is drawn to a structure comprising substrate with overlaid biological membrane.

Group II, claim(s) 31-34, is drawn to a method of making a biological membrane with the steps of selecting a cell type and culturing the cells on a substrate.

Group III, claim(s) 35-38, is drawn to a method of making a substrate with step of shining a laser of preselected focal area.

Group IV, claim(s) 29-30, is drawn to a method of making a structure with steps of selecting a substrate, perforating it, and sealing each pore with biological membrane.

Group V, claim(s) 46, is drawn to a method.

3. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Restriction is proper because the methods of groups II, III, and IV do not result in the structure of claim 1, which is a structure comprising substrate with overlaid biological membrane.

The methods of groups II, III, and IV are different from each other because there are different method steps that result in different products.

Art Unit: 1641

The method of group V is completely different from all other groups. It is unclear what this method is or what the end result/product may be.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
